Each spread focuses on one destination, and the intricate artwork gives readers a visual flavour of the place, with masses to look at and discover the more you look. There are links from one place to the next - historical, geographical, natural history or just simple proximity - for example, there is an ancient Egyptian obelisk in NY s central park, with two sister obelisks in Paris and London. Find the one in the Central Park using Google [trademark] Earth co-ordinates and it gives you the clue to where you will be going next. The pyramids at the Louvre in Paris will whisk you off to the temples of Ancient Egypt, then find a connection from the Colosseum of Ancient Rome to the hot plains of Tanzania that team with wildlife, from flocks of flamingos to herds of wildebeest to prides of lions. And so on. In each location you have to find a souvenir to take with you. You will also need to solve a puzzle with the help of Google [trademark] Earth to collect co-ordinates for your final secret...
